

Explore Science and Technology Frontiers

Destined to make a major impact on the economy and quality of life in the future, New Jersey Institute of Technology is taking a strategic approach to multi-disciplinary hiring of the best and the brightest candidates at all professorial ranks. The university is investing in its current strategic plan by making significant commitments to tomorrow's primary scientific and technological frontiers.

NJIT expects to make 12 new tenured/tenure-track faculty appointments beginning in July 2012, and more than 30 appointments are planned over the next three years.

Located in Newark, NJ, in the heart of the New York metropolitan area, research expenditures at NJIT topped \$100 million in FY2011. NJIT was recently ranked fourth in the nation for the most inventions per dollar of federally funded research.

Applications are now being accepted for immediate review.

NJIT is an Equal Opportunity Employer.

NJIT's new strategic plan emphasizes three cross-disciplinary application areas: Technology & Life Science, Digital Transformation, and Sustainable Systems. We seek faculty in seven supporting academic clusters:

- **Advanced Manufacturing**
- **Architecture Design & Construction**
- **Big Data**
- **Biochemistry**
- **Business Systems**
- **Material Science & Engineering**
- **Sensing & Control**
